

SANCO Studio

Mobile Apps Services

We specialize in creating high-quality, user-friendly, and innovative mobile applications for various platforms and industries. We have a team of experienced and skilled developers, designers, testers, and project managers who can handle any mobile app project (including Apps and Games) from concept to launch and beyond.

Android app development: We use Kotlin, Java, Android Studio, Firebase, Google Cloud Services and other technologies to create native Android apps for smartphones, tablets, wearables and TV.

iOS app development: We use Swift, Objective-C, SwiftUI, CocoaPods, RxSwift, SwiftLint, CircleCI and other technologies to create native iOS apps for iPhone, iPad, Apple Watch, Apple TV.

Cross-platform app development: We use Unity, Flutter, React Native, AWS Services and other technologies to create cross-platform apps and games that run on both iOS and Android devices with a single codebase.

Mobile app design: We use Adobe Photoshop, Adobe Illustrator, Figma, Adobe XD and other tools to create stunning and intuitive mobile app designs that follow the best practices of UI/UX.

Mobile app testing: We use Firebase Test Lab, Crashlytics, Bugsnag, Game Analytics and other tools to perform manual and automated testing of mobile apps on various devices and platforms.

Mobile app maintenance and support:

We provide ongoing maintenance and support services for mobile apps to ensure their optimal performance, security, and user satisfaction. We also offer app updates, bug fixes, feature enhancements, and app store optimization services. Our team is expert in Data Analytics tools (Google Analytics, Game Analytics) and can perform in-depth analysis to provide best feedback on how to increase user retention and satisfaction.

Why Choose Us?

We provide a reliable and professional mobile app service that can help you achieve your business goals and delight your customers. Here are some reasons why you should choose us:

1

Quality: We deliver high-quality mobile apps that meet your requirements and expectations. We follow the best practices of agile development, Code quality, Testing and deployment.

2

Experience: We have over 7 years of experience in the field of mobile app development. We have collaborated with clients from various industries and domains.

3

Expertise: We have a team of experts who have in-depth knowledge and skills in various mobile app technologies and platforms. We can handle any complexity and challenge of mobile app development.

4

Innovation: We are always up to date with the latest trends and technologies in the mobile app industry. We use cutting-edge tools and frameworks to create innovative and future-ready mobile apps.

5

Communication: We communicate with you regularly and transparently throughout the project lifecycle. We provide you with updates, feedback, reports and demos.
